If at any time within one (1) year from purchase date, this tool fails to perform properly because of defects in materials or manufacture, return the tool, postage prepaid, to Oxwall Tool Company Ltd., P.O. Box 231, Flushing, New York 11352, and it will be replaced at no extra cost.

OXWALL PACKAGING SELLS FOR YOU!

Oxwall Tool has been serving the Hardware Industry for over three decades, and for most of this period it has been the leader in offering the trade all types of U.S.A.-made and import promotional hand tools, tool kits and packages at lowest possible cost.

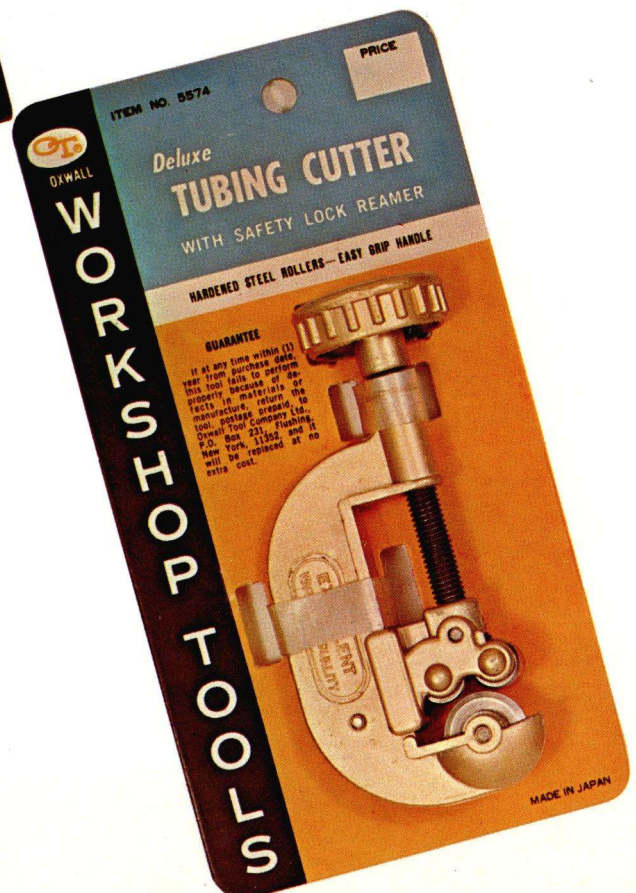

One of the most important factors that has established Oxwall as the leader in the industry has been our always-improved packaging. Illustrated on this page are two traffic-stopping examples. Both the Oxwall "Workshop Tools" and professional quality "Powermaster" lines have their own distinctive matched lines of packaging.

The inside back cover illustrates the packaging of our 3 Newest Lines: "My Very Own" for the Ladies; "Car-Mate" Automotive Accessories; "PrecisionKraft" for The Hobbyist.

Wherever feasible, the tools in all lines are fastened with fiberglass tape on extra heavy duty cards. In every case, our tools are securely affixed to prevent pilferage.

Our 100,000 sq. ft. factory in Oxford, N.J. is one of the best equipped and automated plants in the United States. There, we manufacture screwdriver, sockets, chisels, wrenches, and many other items. Oxwall also maintains large warehouse and shipping facilities in New York City, as well as on the West Coast.

As for the import aspect of our business, Oxwall maintains its own branch offices and supervises factory production according to our own rigid standards, on the European continent and in the Far East. This enables us to offer better quality and wider variety of tools in both the Oxwall and Powermaster lines.

U.S.A.

THE RIGHT SCREWDRIVER for the right job!

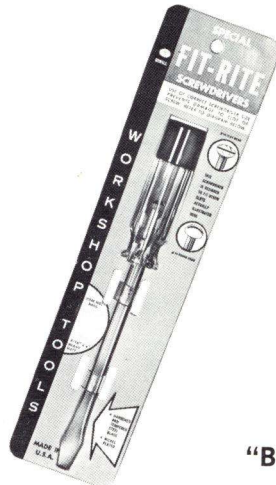

FIT-RITE SCREWDRIVER LINE Completely new merchandising concept. Use of correct screwdriver size prevents damage to slot of screw. Therefore, each screwdriver card illustrates correct size of screw for which the particular screwdriver fits, so as to preserve life of screwdriver tip as well as screw slot. This diagram will be of tremendous help to the consumer when choosing the proper screwdriver for the job. Selecting a Fit-Rite Screwdriver will always mean the right choice.

- "R" Line — Vinyl Grip Handle. Blades are face ground.
- "B" Line — Amber Plastic Handle, with Blue Dome.

All blades are made of hardened and tempered steel, and are nickel plated. All Fit-Rite Screwdrivers are securely fastened on colorful cards, practically eliminating pilferage.

POWERMASTER®

PROFESSIONAL QUALITY TOOLS

GUARANTEE
If at any time within one (1) year from purchase date, this tool fails to perform properly because of defects in materials or manufacture, return the tool, postage prepaid, to Powermaster, P. O. Box 231, Flushing, New York 11352 and it will be replaced at no extra cost.

Professional Quality At Popular Prices

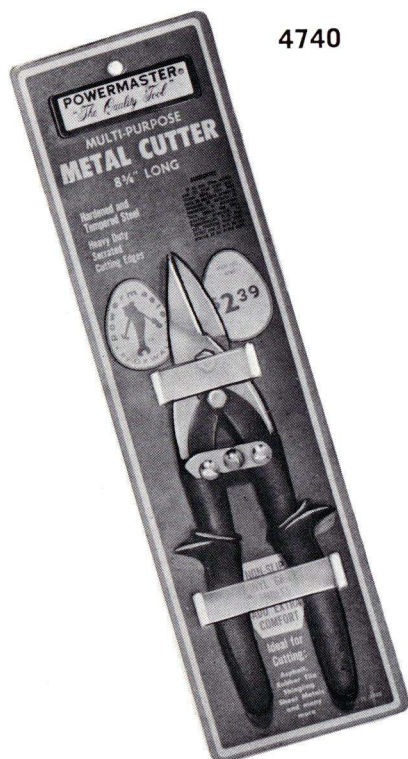

This is the fine quality line introduced by Oxwall in 1965 which has met with such complete acceptance! It's the line designed to meet the ever increasing demand for better tools at prices the mass market can afford. It meets the tough standards of the mechanic with respect to excellence in material, workmanship, and finish.

QUALITY: Most Powermaster tools are made of drop forged, chrome molybdenum steel, and have a triple chrome plated finish to give it eye appeal, as well as longer life. The screwdrivers are made of chrome vanadium alloy steel, are hardened and tempered and fully ground and polished. In addition, the handles are oversized for easier gripping and turning power.

Powermaster tools are made to meet the demanding specifications of the professional.

PACKAGING: Powermaster tools come on colorful, heavy duty cards, securely affixed with tough fibreglass tape wherever practical. Thus, the tools hold firmly in place without ripping off the cards. This keeps your Tool Display uniformly attractive, and practically eliminates pilferage. For those so desiring it, most Powermaster tools also are available uncarded.

Powermaster is the Quality Line you can display with pride, and promote with confidence... profitably!

WHOLESALE PRICE LIST # WC 172

Effective January 3, 1972

This Price List Supersedes All Previous Price Lists

**TERMS 2% - 10 DAYS - NET 30 DAYS - F.O.B. OXFORD, N. J. OR FLUSHING, N. Y.
WITH FULL FREIGHT ALLOWED ON SHIPMENTS OF \$250.00 OR MORE ONLY.**

Dear Mr. Buyer:

As you know, the 10% Surcharge on Import Items has been lifted. In addition, the U. S. Dollar has been devalued.

As a result, we are rushing out to you this new Price List reflecting these sudden actions.

Please excuse the unfinished appearance of these pages, but we are anxious to get this information out to you as quickly as possible, so as to end the uncertainty with which we have been living these past few months. A regularly printed Price List now is in the works.

Incidentally, it goes without saying that effective with this Price List, we are eliminating from the invoices all surcharges and revaluation charges.

We sincerely appreciate your understanding and cooperation during this recent period.

Service Charge — There will be a service charge of \$5.00 added to all orders under \$100.00.

Returned Goods Policy:

- (1) Return Authorization Number must appear on Cartons, Bill of Lading, and Credit Charge.
- (2) To obtain Return Authorization Number, advise Oxwall in writing of reason for return, and specific items and quantities.
- (3) Credit will exclude Freight Charges both ways.
- (4) Handling Charge of 10% will apply to all returns.
- (5) When Reconditioning of Merchandise is necessary, an appropriate charge will be made.

Standard Packing — We reserve the right to change orders to meet standard packing requirements.

Prices, Discounts, Terms and Conditions are subject to change without notice and to all applicable federal and state taxes.
